

Snowy Wonder fun fold card

September 2024 in person class instructions

The project:

Photo 1

Supplies:

- A4 Pool Party card cut down on the short side to 5-7/8" for the card base
 - scored on the long side at 1-3/4" & 3-13/16" from both ends
- Basic White Thick card measuring 5-5/8" x 3-7/8" for the inside
- Snowy Scenes designer series paper
 - 2 pieces measuring 5-5/8" x 1-1/2"
 - 2 pieces measuring 5-5/8" x 1-3/4"
- 1 white snow globe die cut
- 1 coloured snow globe die cut
- 1 coloured snow globe base die cut
- scraps of white and coloured card for the sentiment panel
- scraps for your chosen decorations inside the snow globe

Photo 2

Make your card...

- Fold and burnish the score lines on the card base. From left to right they go mountain, valley, valley & mountain
- Add the narrower pieces of DSP to the front panels
- Add the wider pieces of DSP to panel behind, so they show a little edge when the card is folded (see photo 1)
- Add the white panel inside the card (you may want to stamp some snowflakes first)
- Cut a wavy line less than 1 inch along the bottom of the white snow globe piece. Keep the remainder to die cut some of your decorations
- glue the piece you've cut to the bottom of the coloured snow globe
- glue the base to the back of your globe
- stamp and die cut your decorations for inside the globe.
- stamp your sentiment and cut your card to fit, including the backing piece
- glue the left half of your snow globe to the left panel only
- glue the right half of your sentiment to the right panel only.
